The new KatKath Feline Urinary Catheter Insertion Pack offers you all the benefits of our market leading KatKath with the convenience of having everything in one place. This allows you to start the procedure straight away, saving you time and money.

The pack has been created with all the items required to help you standardise best practice, while being more cost effective than buying all the products separately.

One sterile, simple pack for all your feline urinary insertions.

1. **KatKath 11cm or 14cm**
   Atraumatic long-term urinary catheter, perfect for unblocking cats.

2. **Drape Towel 45 x 35cm**
   Providing you with a sterile working platform.

3. **Prolene® Suture 2-0 Straight**
   Prolene monofilament helps reduce the risk of infection.

4. **Lubricating Gel 5g**
   Aids insertion.

5. **Luer-slip Syringe 10ml**
   To flush and prime the catheter.

6. **Clear Tray 20 x 15 x 4cm**
   Offering a protective, sterile barrier.

.save up to 50%*

* Up to 50% saving when compared to buying similar products separately.
Our KatKath Feline Urinary Catheter provides you with an innovative, long-term device which minimises trauma and is simple to use. Produced with non-reactive kink/crush resistant materials, KatKath does not require the use of a stylet.

**KatKath in more detail:**

- **Simple to use**
  Unblock the cat. Leave in place.

- **Non-reactive material**
  Low coefficient of friction. Vital when dealing with an inflamed oedematous urethra.

- **End hole**
  Allows concurrent flushing during placement.

- **Available with a rotating suture collar**
  Allowing natural rotation when in situ.

- **Kink and crush-resistant**
  Allowing placement of the catheter without the use of a stylet.

- **Tapered distal tip**
  Allowing atraumatic catheter placement.
